GitHub: github.com/rlhx

Computer engineering student with a passion for cybersecurity and a good background in software engineering. Skilled in programming languages such as Python, C++, and web development (JavaScript, Html, CSS and React), as well as experience in Linux system administration. Seeking an internship in a cybersecurity or DevOps role to gain real-world experience in the field.

Education

- **Bachelor of Science in Computer Engineering, Mersin University** (Expected graduation: July 2024)

Relevant coursework: Computer Networks, Network programming, Cryptography, Computer Systems and Architecture, Data Structures and Algorithms, Operating Systems.

- **Superior School of Informatics (ESI), Bobo-Dioulasso, Burkina Faso** June 2019
- **Scientific Preparatory class Math-Physics-Engineering Science, Ouagadougou, BF** June 2018
- **High School Diploma in Natural Science and Mathematics** June 2017

Technical Skills

Programming languages: Python, C++, Java, JavaScript, SQL

Operating systems: Linux, Windows

Tools: Metasploit, Git, VirtualBox, MATLAB, Docker, WireShark, MS Office

Good understanding of **Cybersecurity concepts** such as **Threat intelligence, Network Security, Scripting, and Penetration testing**

Professional Experience

- **French Teacher for preschool students**, Neşe Erberk Mersin October 2022-Present
Teach the basics of the French language to young children,
Prepare lessons with innovative tools,
Organize children to help each other,
- **Sales Employee**, Tuzun Transformer, Part-time February 2022-October 2022
Sell via the website to customers,
Manage a portfolio of customers,
Manage advertising on different social networks,
Find new customers and maintain a long relationship with them,
Communication management before and after sales with customer,
Work with others sales employees
- **Sales Employee**, Emirates Keys, Part-time December 2020-July 2021
Sell via the website to customers,
Manage a portfolio of customers,
Manage advertising on different social networks,
Find new customers and maintain a long relationship with them,
Communication management before and after sales with customer,
Work with others sales employees

Social Experience

- **Mersin University Siber Guvenlik Kulub**, 2019-Present
- **Association of Students from Burkina Faso in Türkiye (AEBT), General Secretary**, 2020-2022
- **Leadership Academy for Students from Burkina Faso** 2020, 2021 editions.

Projects

Project 1: A Multi users chat base on UDP protocol with Python

Project 2: Implementation of N-Queen Problem with Python

Project 3: Deliveroo Clown with React Native

Project 4: Portfolio with React Js

I did many small projects related to the different courses I had which you can check on my GitHub.

Certifications

- **The beginner's Guide to Attack Path Validation**, Picus Security, Issue Jan 2023
- **Penetration Testing, Incident Response and Forensics**, Coursera, Issue Dec 2020
- **Participation in the Leadership Academy editions 2020, 2021**, AEBT

Languages

- French (native speaker)
- English (Advanced)
- Turkish (Intermediate)
- Local language, Dioula
